

Juki Industrial Sewing Machine Presser Foot Replacement

This will show how to replace the presser foot for the industrial sewing machine Juki DDL-8700.

Written By: Ada Lee

INTRODUCTION

The presser foot is one of the most important parts of the sewing machine. This guide shows you how to replace different presser feet on the Juki DDL-8700.

TOOLS:

- [1.0 mm Flathead Screwdriver](#) (1)

PARTS:

- [Presser Foot](#) (1)

Step 1 — Presser foot

⚠ Make sure to turn off the machine before replacing the presser foot.

- Unthread the needle.

Step 2

- Roll the hand wheel on the right side of the machine to raise the needle up.

Step 3

- Pull up the switch to raise the presser foot.

Step 4

- Use a screwdriver to disassemble the presser foot.

Step 5

- Use the screwdriver to assemble the new presser foot.

To reassemble your device, follow these instructions in reverse order.
